MANNOSE PLUS CAPSULES

Item No.: 5449259

Freezing cold in winter or wet swimwear in summer are a real nightmare for many women. But this is often not necessary at all.

Our Mannose Plus capsules contain a high-quality complex of D-mannose and cranberry fruit extract with proanthocyanidins supplemented together with magnesium and vitamin D. Mannose is an important component of membranes in the human body, including in the urinary tract. In addition, magnesium and vitamin D contribute to the maintenance of normal muscle function. This also applies to the bladder muscles. Magnesium and vitamin D also contribute to the normal function of the immune system.

Benefits

- Vegan
- With mannose
- Cranberry fruit extract with proanthocyanidins
- Magnesium and vitamin D contribute to the maintenance of normal muscle function.
- Magnesium and vitamin D contribute to the normal function of the immune system.
