MACA PLUS CAPSULES

Item No.: 5449262

Testosterone is the most important sex hormone for men. A low level of this hormone can result in a lack of drive, a reduced desire for sex and decreased sperm production - an emotional burden for many.

Our Maca Plus capsules are a high-quality complex of plant substances (maca, fenugreek, tribulus terrestris), L-arginine and the minerals zinc and selenium. Zinc contributes to the maintenance of normal testosterone levels in the blood. The mineral also plays an important role in fertility. Selenium is required for sperm formation.

Benefits

- Vegan
- Zinc contributes to normal fertility and normal reproduction.
- Zinc contributes to the maintenance of normal testosterone levels in the blood.
- Selenium contributes to normal sperm formation.
